

The Generating Change Program

We know that a few pennies can have a powerfully positive impact on our community. The Generating Change Program is a convenient and painless way for Marquette Board of Light & Power customers to help needy families in our community. Participants can agree to round up their utility bill to the next highest dollar each month, with the extra change going to provide one-time utility assistance to customers who can't make their utility bill payments during the winter months. The Generating Change Program is administered by the Salvation Army of Marquette County, which screens applicants and determines the level of support for each. All proceeds will stay within the Marquette Board of Light & Power community.

For more information, visit our website www.mblp.org or call our billing office at 906-228-0311.

There are three ways you can help raise funds for utility assistance for low income families in the Marquette area:

1. **Round up** - With this option, we will round up your monthly utility bill to the next whole dollar.
2. **Round up and add a dollar** - With this option, we'll round up your monthly utility bill to the next whole dollar and add an additional \$1 each month. You have the choice to leave it set at the \$1 default or increase to any amount you choose.
3. **One time donation** - You can also make a one-time donation to the program. This will not show on your monthly utility bill.

The total amount contributed for the year will be included on your January statement. You can use this statement for your tax reporting purposes.

Name _____

Address _____

BLP Account Number _____

Round up to the nearest dollar

Round up and add (circle one or write in) \$1.00 \$3.00 \$5.00 Other _____
